OK, Lets Get Started

With this we will use the already made efforts of youtubers to make us money. You know those popular channels that have hundreds of thousands of views and comments? Yes, I'm talking about those. We will be making money basically doing nothing. Doing this method is Completely Whitehat and very simple to execute.

First, make a YouTube account. If you already have one, feel free to skip this step.

Now you will need to sign up on the website that you will be making money from. You can cash out right to your PayPal! It is a website called Acifin.

Make an account, and please use your PayPal email during registration

Acifin allow you to pick from two payment methods. You can either choose to take 10% of their monthly profit, or a onetime payment of \$5 per channel. I would recommend the \$5 per channel as it stacks up quickly.

Now you are ready to start the niche. Go ahead and get your referral link.

We will need to find channels that fit Acifin's criteria.

- Have no copyrighted content**
- 300+ daily views and 300 subscribers**
- Is not already partnered to a network**

It is very easy to find channels. Type in a keyword on google, and find someone with a couple thousand views on their video. Copy and paste their username and paste it here (Where it says username)

<http://socialblade.com/youtube/user/USERNAME/>

Check their average views at the bottom. Anything over 300 means that they qualify!

Now we will send them a message. Check my next page for a template

Hello (USERNAME),

I was looking for some (Keyword Here) videos, and stumbled across your channel. I really like your videos, and feel you have potential to monetize them. I am actually a representative of the Acifin network, and would like to extend a special invitation to you!

For more information, you can email me at (EMAIL HERE), Skype chat me at (USERNAME HERE) or just respond to this message. Here is a link to our website, feel free to check it out. You will be taken to the signup page.

Thanks for your time!

(YOUR NAME HERE)

You can personalize their message more, which helps.

For best results, try to extend 20 invitations a day. You can also post your link on forums to make it more autopilot. I will be updating this method with more autopilot ways in the future, please check back on my sales thread!

I hope you have learned something from this E-Book and I would appreciate it if you let me know how you liked it.
